Abstract:

The Electrohomoeopathy is a harmless, unique, natural and Scientific system of Medicine, Dr. Count Ceaser Mattei of Rochetta, Bologna, Italy has invented it on about 1865. This system of medicine is based on the principles of "The Human Organization is entirely composed of two elementary Liquids Lymph & Blood and the health and disease are depend on the such liquids." The Electricity have been observed in all the living beings including plants. It is proved that no cell, no tissue, no organ and / or a body could possibly manifest its legitimate function without Electrical Energy. It is a fundamental and Basic Principle of the science that the manufacture, transmission, utilization and discharge of Electrical Energy of living cells is responsible for metabolism of the Body and also give us a rational explanation for all the phenomena of life health, diseases and therapeutics. The Electro Homoeopathic Medicine generate and regenerate greater power restoring functional capacity and arresting organic changes than all the drugs mentioned in other pharmacopoeia.

Keywords : *Electro-Homoeopathy, Cohobation, cell , Dr. Count Ceaser Mattei.*

Introduction :

The Electro Homoeopathic remedies are prepared by the Vegetables on a specific process called "SPAGIRIC METHOD" which is apart of German Pharmacopoeia duly recognized by the Govt. of India under the Drugs & Cosmetics Act 1940 as Schedule II item number 4A (b). These Remedies have maximum curative to keep them purified.

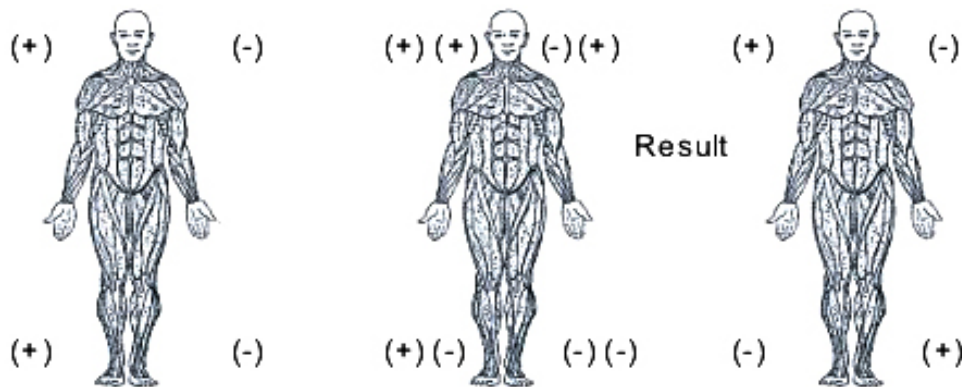

Methodology :

Electro homoeopathic medicine are prepared from a scientific process known as COHOBATION through which 'Od force' of the medicinal plants are derived in the form of 'SPIGARIC ESSENCE' this simple and unique system does not require hard labour. Moreover, this system does not require various laboratory tested or second medical opinion being firm in principal. The E.H. medicines are indicated after through study of the temperaments of the patients as well as positive or negative disease.

The Electro homoeopathic remedies conclusively prove its simplicity and limitation of remedies. And belonging to following assumptions

The human body is divide by positive and negative parts

- (a) First law – the body is right side positive (+) and left side negative (-).
- (b) Second law – the body is upper side positive (+) and lower side negative (-).
- (c) Third law – the body is middle part of neutral*

The human body parts is effected for electronic configuration.

The human body parts is effected for electronic configuration.

Electronic configuration is the distribution of electron of an atom or molecule in atomic or molecular orbital's. The maximum number of electrons in any class is 4 to -2, which is denoted by S, P, D, F

EXAMPLE -

S - 4 x 1 - 2 = 2

P - 4 x 2 - 2 = 6

D - 4 - 3 - 2 = 10

F - 4 x 4 - 2 = 14

(SUB CELL) S,P,D,F,

(4n-2)n + 1, 2 ,3, 4, 5

4(1) - 2 = 2 S2

4(2)-2=6

4.btdr (3)-2=10 d10

4 (4)-2= 14 F14

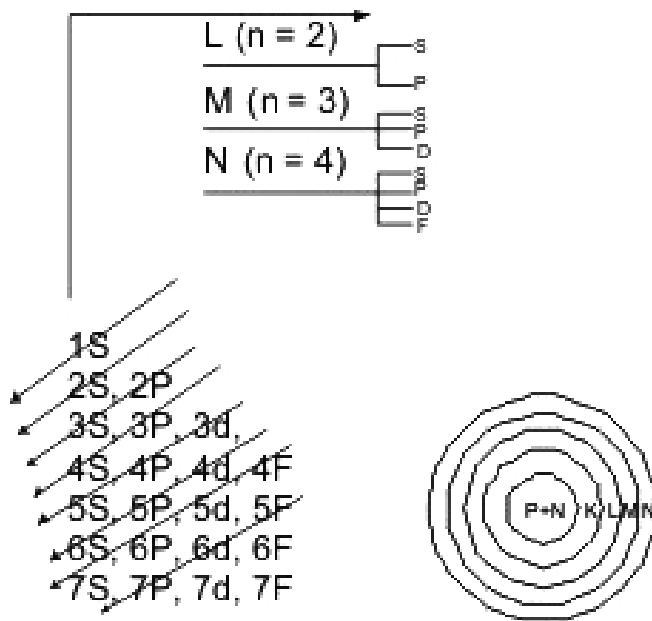

S2 , S6, d10, F14

S1, P3, D5, F7

Half of the whole cell is more temporarily than half cell filed with half.

(S<P<d<F)

K (n - 1) S

That is why electro homotomy is based on history of pathis viz ; physics, chemistry, biology, mathematical, geography, philosophy etc. As various researches are being carried out by the old and new school of Electro homoeopathy, it is hoped that this new system of treatment shall be attracted by public in the best interest of the health.

Electro homoeopathy is an undying fact that Electro homoeopathy is a new system of treatment for MULTIBARIOUS disease, its efficacy, superiority and gleanings about cure have been EXTALLED by so many physicians of India and Abroad. It may be considered as an excellent system to cure even the almost dreadful diseases, which have been remained, unconquered so far even by modern therapy, these remedies, are harmless, cheap, limited and quick in action being prepared from vegetable kingdom, thy are quite different

They were invented dr. count CEASAR MATTEI of Italy (bologna) in the latter part of eighteenth century of the Principle of complexa – complexis – curenter. before, it homoeopathy look its origin in the latter part off seventeenth century. Dr. Samuel Hahnemann of west Germany of the principle of similia curentur.

It is undoubtedly true and every system of treatment significance in the pioneer field of medical science for the restoration of the health of the patient. Our clinical records of Electro homoeopathy absolutely proven that electro homoeopathy remedies have the capacity cure all types of disease weather bacterial, parasitic, or mixed, parasitic ; or mixed in origin. In view of the facts enumerated above, Electro homoeopathy needs through protection and encouragement by the govt. and early recognition in the best interest of the public health.
